SANITARY DISTRICT IN ARLINGTON COUNTY.

A recent issue of the Engineering News-Record says.

At the last session of the Legislature of the State of Virginia a bill passed creating a Sanitary District of Arlington County, Virginia, and providing for water and seweage districts to be known as "Arlington Sanitary District.'"

The three members of the Board of Supervisors of Alexandria County are designated as the Sanitary Commission and are empowered to divide the county into sub-districts upon application of a certain number of qualified voters in one or more of said districts. The board is authorized to make surveys, investigations and estimates of cost for water supply and sewerage and if authorized by a majority vote in the district to issue bonds and have the same constructed and the cost assessed against the district in which the improvements are made.

C., has been appointed by the Board of Supervisors of Alexandria County, Va., acting as the Sanitary Commission, as the Chief Engineer of "Arlington Sanitary District."

Prohibitionists' Woman Chairman Leads in Convention's Outbreak

BILLY SUNDAY TO RUN

"Acceptance Impossible," Nebraskan Nominee Had Wired But He May Reconsider.

Lincoln, Neb., July 22.—William Jennings Bryan was nominated by acclamation for President of the United States by the Prohibition party in session here last night. This action was taken against his wishes and it is doubtful whether he will accept the nomination.

This is the fourth time Bryan has been nominated to lead a national ticket. He was three times standard-bearer for the Democrats.

Hood River, Ore., July 22.—Billy Sunday is disinclined to get into politics, but "if William Jennings Bryan thinks it necessary that the prohibitionists put a candidate in the field, or if existing circumstances point to a possible undermining of the purposes of the eighteenth amendment, then you may count on us getting into effective action." This was the evangelist's reply when asked if he would accept the nomination for vice-president of the prohibition party.

PLEADS FOR PARDON.

Christensen Asks Cox and Harding to Join With Him in an Appeal to President Wilson.

Denver, July 22.—Parley P. Christensen, Farmer-Labor party candidate for President, yesterday telegraphed to Senator Harding, Republican nominee, and Governor Cox, Democratic candidate, suggesting that all join in a demand upon President Wilson to immediately release Eugene V. Debbs from prison.

The text of the message follows:

"I have been selected by the Farmer-Labor party as its candidate for President of the United States. It is my intention to inaugurate as quickly as possible a nation-wide campaign in behalf of the ideals of political and industrial democracy embraced in the platform of that party, but I dislike utterly to start on such a campaign while one of my opponents is in prison and especially while he is in prison for no crime other than an honest public expression of his political views. I refer to Eugene V. Debs, nominee of the Socialist party.

"The war has been over for nearly two years, and whatever justification there might have been on the part of the government for denying Debs his freedom during the war has now been dissipated by twenty months of peace. Mr. Debs may be utterly wrong in his ideas of how best to conduct the affairs of society, and so may I be and so may you, but my conception of liberty includes the right to think wrong. I say to Mr. Debs and to others with whom I disagree, including the candidates of the Republican and Democrait parties, I loathe your ideas like death, but I will defend with my life your right to express them.

"Does it not appeal to you as a matter of simple justice that the presidential candidates of the Democratic, Republican and Farmer-Labor parties should join in a demand upon the President of theo United States to immediately release the Socialist candidate from Atlanta prison?

"As for me, it shall not be said that I have been a party to the persecution of any man for the opinions he holds, and I should so regard myself if I failed to publicly announce my condemnation of the imprisonment of Debs since I have entered a race in which he is a competitor Your sense of sportmanship must have led you, since your nomination, to consider the position of Debs. I beseech an answer from you to this proposal."

RESOLUTE WINNER ON TIME ALLOWANCE

Defender of America's Cup and Shamrock Finish on Even Terms

WILL NOT RACE TODAY

Remarkable Ending of One of Most Spectacular Sailing Contests in the History of Yachting.

New York, July 22.—In one of the most spectacular yacht races ever seen off the Hook the Resolute yesterday scored her first victory over Shamrock IV in the contest for the America's Cup.

For the first time in the seventy years of racing for the trophy the thirty miles windward and leeward battle ended in what so far as concerns actual elapsed time was a dead heat between the competing yachts. In other words, the Resolute won by precisely the amount of her time allowance under the measurement rules, which was 7 minutes and 1 second, each craft having covered the course in the identical elapsed time of 4 hours 3 minutes and 6 seconds.

That the finish did not quite afford the marvelous spectacle of the races running across the line literally neck and neck was due solely to the fact that at the start of the race Shamrock had gone over the same line 19 seconds in advance of her rival. At the finish she crossed it with exactly the same slight lead and that advantage was won in the last half mile.

Since the first race for the America's Cup was sailed in 1851 there has been no parallel. The nearest approximate to a dead heat occurred in one of the 1901 contests between Columbia and Shamrock II, when the American

JAILS MAN, THEN WEDS HIM

Hancock Woman Alleged He Is Father of Her Child

Hagerstown, Md., July 22.—"Hurry up, Sam, we can't take all day to get hitched up," said Miss Daisy Duvall, 28 years old, to Samuel Reed, 62 years old. The latter was in jail here on a charge preferred by Miss Duvall. She consented to marry the man, believing a wedding would solve the troubles of both. They live in the mountains at Skillettown, a hamlet near Hancock. Following the birth of a child Reed was arrested and brought to jail here.

Sheriff Richard Duffy, Tuesday afternoon accompanied the groom to the Courthouse where Reed secured the marriage license. The bride-to-be chafing under delays and noting that it was nearly time for the departure of the train for Hancock, urged Reed to "hurry up", adding:

"Ever since the old ma died we've been living off the cows and chickens and we've got to get back home in time to milk the cows tonight.

The pair were driven in a cab to a church parsonage, and after the ceremony they caught the train for Hancock.

BERGDOLL GIVES HIMSELF UP

Brother of Grover Cleveland Bergdoll Is Long an Alleged Draft Evader

New York, July 22.—While Lieut. Col. John E. Hunt, retired, former commanding officer of the United States disciplinary barracks, Fort Jay, was facing court martial yesterday for alleged neglect of duty in connection with the escape of Grover Cleveland Bergdoll, wealthy draft dodger, the convicted deserter's half brother, Erwin R. Bergdoll, walked into headquarters at Governor's Island and gave himself up after having been sought for more than two years on a similar charge.

With Bergdoll at the time of the surrender, which was wholly unexpected, was James Romig, of Philadelphia, and another half brother, Charles Braun. Romig, a friend of the Bergdoll family, is under indictment with Mrs. Bergdoll as a result of the recent escape in Philadelphia of Grover C. Bergdoll. Grover eluded military guards in whose custody he was released from Governor's Island to go to Maryland in search of $150,000 he claimed to have buried in the mountains there.

SLAIN BY BROTHER.

Divorced Wife Had Become Bride of Dead Man Month Ago.

Danville, Va., July 22.—James Anderson, aged 32, shot and killed his brother, W. Henry Anderson, at the former's home in North Danville late yesterday afternoon

James Anderson some years ago married Martha Owen and recently divorced her. A month since W. H. Anderson married the young woman. Yesterday husband and wife had been in town and on their way home, the husband decided to be shaved. His wife went home alone and claims that near her door her first husband was waiting for her.

She declares she insisted that he leave her, but he followed her, forced an entrance, sent the children to buy candy and locked the door. Within a few minutes the lawful husband appeared, flung the door open and said:

"Yancey, I've caught you."

The intruder, however, had the husband covered with a pistol. Mrs. Anderson says she hid her eyes; there were two shots. Her husband plunged out of the front door and fell dead in a near-by store, while her first husband ran across some fields.

Less than a week ago Henry Anderson had complained to the police about his brother's alleged persistent attentions to his wife. Mrs. Anderson is not sure if her husband had a pistol when he entered.

The fugitive was captured in a boarding-house at Schoolfield.

COAL SITUATION IN STATE ACUTE

Alexandrians Attend Meeting In Richmond Hope to Speed up Shipments For Virginia.

A committee from the chamber of commerce of this city today is attending the conference of representatives of the various business organizations with Gov. REAPING THE FRUITS.

It is gratifying to state that the last case of typhoid fever in Alexandria during the six months of the present year occured June 19th, and at present there is no trace of this much-dreaded malady in our midst During the summer of 1917 there was a veritable scourge of typhoid fever here, so much so that the military authorities forbade soldiers stationed at Camp Humphreys from eating or drinking during their visits to Alexandria. During that year a number of deaths from typhoid fever occurred in our city.

In the sucoeeding year (1918) the civil and military health authorities vied in bringing about conditions which tended to lessen the prevalence of this disease, and the fruits of their labors were apparent.

During the first six months of the year (1918) there were 88 cases, during the same period of 1919 46 and in the present year 21 cases occured with the passing away of the disease June 19.

The work of the health authorities it will be seen, is producing the most gratifying effect, as there has been a marked diminution in cases of typhoid fever during the past two years, a malady which has heretofore been prevalent during the summer months.

A few years ago this disease taxed the city physicans and nurses every season, and it is a matter of great relief to know that it has been minimized to such an extent.

Like everything else worth while, it takes some outlay to procure the services of health officials, but when it is considered that they are engaged in saving lives, and are saving them by instituting sanitary measures, no tax-payer should regard such expenditures as unnecessary when it is realized that a dangerous malady, which has heretofore been so often in evidence, is being virtually banished from our homes.

While so much has been done towards freeing our city, scourges, there is much still to be accomplished in the way of eradicating what is known to produce disease; many things remain to be done. The work of connecting residences to city sewers is going on all the time. Cesspools are being filled and the health officals are using their argus eyes in locating nuisances wherever they may exist. Those responsible for unsanitary conditions on their premises are being notified and the strong arm of the law is only invoked in cases where certain persons ignore the demands of the health authorities or take their own time in doing what they should have done long ago.

WORSE THAN EPHESIAN TEMPLE-BURNING.

Dr. William C. Fowler, health officer of the District of Columbia, says that reports have reached him from nearby farms where farmers have willfully wasted large quantities of milk to keep the price up in Washington. Dr. Fowler says that his informant declares that in one instance fresh milk was thrown on the ground. In a number of cases, it is said, milk has been feed to the hogs.

One Saturday afternoon a few summers ago we noticed a country wagon winding lazily up King street. The vehicle contained vegetables which were being carried back to the farm. The grower had brought his products to market, but had failed to dispose of them at his prices. Rates had been fixed early that morning, but they could not be maintained, and the rural resident had preferred to carry them back rather than sell at prices below those he supposed they should bring.

The present season has been one of the most prolific. Notwithstanding the shortage of farm labor, Ceres has smiled upon our land. Crops have been luxuriant, and the cornucopia is in evidence, but when we read of avaricious dairymen casting milk upon the earth, or dumping it into hog troughs rather than dispose of it at reasonable price, it causes would-be purchasers to become incensed and wonder how long the merciful Giver of all will restrain his wrath upon those who thus abuse his blessings.

IN MEMORIAM

In loving memory of my little son RICHARD J. RINKER who died one year ago today, July 22, 1919, and LURINDA B. RINKER his mother, February 26, 1920.

Mourn them not, they are safely anchored,
Angels led them all the way;
Rich in mercy, Jesus called them,
To the land of endless day.
Tenderly we laid them, side by side to rest,
Away from earth's sorrows and cares
And now they are waiting to welcome me home,
With the blessing of heaven to share.
Evermore beside the Master,
Days of pain for them have passed;
Entered through the gates to that city,
Reached the promised goal at last.
Dearest ones, you have left me,
And I miss you more and more,
But some day I hope to meet you,
When the toils of life are o'er.
There is one who still will linger
To the spot where you are laid,
I will come and bring you flowers
On the grave's that death has made.

SEES BRITISH PROPAGANDA IN LIFE BELT

N. W. Wilson Writing in the Philadelphia Record Says

How our papers innocently are made victims for English propaganda is shown by the Lusitania life belt story. On Wednesday last, while going down on the boat to take the train for Wildwood, I saw with my own eyes a life belt thrown from a steamer bearing the English flag, which we passed close by. I remarked to another passenger: "I wonder if some one has fallen in the river?" but we could see nothing, and there was no commotion on the steamer, only three men standing at the stern.

I forget all about the incident until I saw the story in your paper. The British want to keep us on bad terms with Germany so that they can capture her commerce, and, as they thought the Lusitania affair was a good thing to arouse our ire, they played that great hoax on us, Yes, they know how!

Yachtsmen Report Seeing Plane Fall Into Sea Near Lightship

Mineola, July 22.—Two army aviators, who left here in an airplane yesterday afternoon to witness the international yacht race, failed to return tonight and fears were entertained for their safety.

Man Buried 48 Hours in Brookside Colliery Caught by Debris

Pottsville, Pa., July 22.—John Devine, a miner from Tower City, has been entombed for 48 hours at the Brookside Colliery the western part of the country, and every effort is being made by officials of the Philadelphia and Reading Coal and Iron Company to rescue him alive.

Some of Devine's comrades believe he is living and declare they have heard his rapping as signals to the rescuers but company officials while sparing no expense to reach Devine, think he is already dead. Charles Hunter, who was engaged with Devine in driving a tunnel escaped to daylight and is uninjured. Devine was married only a week ago. He was working within only a few feet of the surface when a rush of debris carried him to a living grave.

WILL ASK INCREASED TRAFFIC

Fares and Milk to Bear Substantial Portions of 600 Million Dollar Award

Washington, July 22.—Milk and passenger transportation are to bear substantial portions of the rate increase to be asked by the railroads of the Interstate Commerce Commission to offset the $600,000,000 added yearly expenses caused by the labor board's wage award, it was announced yesterday by A. P. Thom, general counsel for the Association of Railway Executives.

Passenger fares and rates are not included in the pending application of the roads for a freight rate increase of approximately 28 per cent. Mr. Thom declared, however, that it was planned to ask that the passenger traffic absonb as much as possible of the new $600,000,000 charge against operation.

Increases will be asked on commutation and multiple tickets and on Pullman charges, he said, as well as on ordinary travel. Express rates also will be expected to bear part of the increase.

The portion of the increased expense to be absorbed by passenger traffic is expected to amount to about one-half cent a mile in the east and from three-quarters of a cent to a cent a mile in the West.

"DRY" LEAGUE HANDS OFF

Whole Effort of Organization Will Be Devoted to Electing Congress Favoring Prohibition.

Washington, July 22.—The Anti-Saloon League will concentrate its efforts in the coming campaign on the election of a "dry" Senate and House.

As between Governor Cox and Senator Harding, Democratic and Republican nominees for President, the league will take no stand.

The whole endeavor of the prohibition organization will be directed towards safeguarding the constitutional amendment and the Volstead enforcement act from attack through Congress.

This is the policy that will be adopted by the league's national executive committee here tomorrow, it was learned authoritatively from "dry" leaders who arrived today to attend the meeting.

In a nutshall, the task ahead of the Anti-Saloon League, according to these leaders, is to make certain that no law to repeal or modify the Volstead act is enacted and sent to the President for approval or veto.

SAW HANGING OF BROWN

W. C. Payne, of Nineteenth Virginia Infantry, Dies at Charlottesville Tuesday Night

Charlottesville, July 22.—W. C. Payne, 81, Confederate veteran and retired merchant, died yesterday evening. He was the son of the late William Payne and was born near Cobham, this county. He came to this city in 1856 and opened a grocery store. He joined the Monticello Guard and was with that company at the hanging of John Brown at Charlestown in 1859. In 1861 he left for the front with Company A, Nineteenth Virginia Infantry, and served in many engagements. In 1862 he was stricken with typhoid fever, which, for a time, left him entirely blind. During this illness he was treated at a private residence, and as army officials found no trace of him, he was reported dead.

ASSAULT ON "FORT BOODLE"

Women Will Form 'Battalion of Right' to Defeat Republican Attempt to Buy Presidency.

Columbus, O., July 22.—Though busy from early morning until far into the night conferring with George H. White, the new chairman, and other members of the Democratic National Committee completing plans for an aggressive campaign that will cover every debatable or doubtful State, Governor Cox found time yesterday to emphasize his determination to make the collection by the Republican bosses of a huge fund—estimated now at $100,000,000—to buy the presidency one of the leading issues of the people.

The Governor feels that American voters—and he counts strongly on the support of the newly enfranchised women, Democracy's "Battalion of Right"—are ready to register their condemnation of the almost incredible debauchery in the Republican preconvention primaries, as revealed by a Republican senatorial investigating committee, and he will demand that this committee "turn the light" on the present conspiracy of the sinister forces in control of the Republican party to collect a large corruption fund to buy the presidency.

WOMAN MAKES CHARGES

Names Ex-Convict as Guilty of Assault in Woods Near Berwyn

Washington, July 22.—Mrs. Fannie Walters, an aged and feeble little woman, barely tiping the scales at 100 pounds, is in a precarious condition today at her home near Daniels Park, Md., and Walter Baker, 35 years old, ex-convict, is locked up, charged with attacking her in a patch of woods near the woman's home, about three-quarters of a mile from Berwyn, late yesterday.

Still suffering from cuts and bruises inflicted by her alleged assailant, Mrs. Walters, told her story last night to Sheriff Thomas H. Garrison and Justice of the Peace Herbert J. Moffatt, who arrested Baker at his home about an hour after the complaint was lodged by Mrs. Walters' daughter, Mrs. F. W. Cissel.

Mrs. Walters, who is 65 years old, had gone to call for Mrs. Baker, the former convict's mother, for the purpose of picking berries, she said, but found Mrs. Baker away. The son, she said, volunteered to conduct her to a berry patch. When they reached a lonely spot in the woods, according to Mrs. Walters' story, Baker grabbed the elderly woman.

Mrs. Walters said she pleaded with Baker. He choked her and threatened her with a large stick when she resisted, she said.

FELL INTO BOILING LYE

Boy Climbed Over Chair Barricade While Mother Was Absent

Newport News, Va., July 22.—Tumbling backward into a tub of boiling lye water, Paul Richard Siego, three-year-old son of Mr. and Mrs. M. Siego, of Hilton, was so badly burned that he died. The child's flesh from the arms to his knees was literally cooked on the body, according to Dr. H. W. Curtis, attending physician. "We placed him in a parafin cast a short time after the accident and his suffering was not as acute as might be expected," Dr. Curtis said. "He gradually dropped off to sleep, never awakening."

Mrs. Siego, according to the neighbors, left the little boy and her other child in the house while she went out in the yard to hang up clothes. Fearing for the safety of the children she placed a chair across the door, blocking the little ones out of the kitchen, in which the tub of water sat. The little fellow climbed over the chair and pulled himself up on the cupboard. He was looking for jam or sugar. The tub of steaming lye water was directly below him.

In attempting to open the cubpoard door he lost his balance and fell off the ledge, landing in the tub in a sitting position. His screams of agony brought his mother to the room. The mother grabbed the child to her breast and did what she could for him. Friends and neighbors came in and the physician was summoned. Much of the child's flesh came away when the clothing was removed. Thirty-six hours later he died.

The request of the unions was that five of the members present new information to the board. W. G. Lee, president of the trainmen ;Timothy Shea, president of the firemen, and L. E. Sheppard, president of the conductors, were to be members of the committee.

won by 41 seconds. The Irish yacht on that occasion actually had finished two seconds ahead of the Columbia, but as she had been compelled to give the latter a time allowance of 43 seconds, the defender won the race by 41 seconds. In 1893, when Valkyrie II had to allow to Vigilant 1 minute and 33 seconds, Vigilant in one of the contests won by 40 seconds of that handicap, the British boat leading her over the finish line. The defender in 1895 won one of her bouts with Valkyrie III by the scant margin of 47 seconds.

The series stands now: Shamrock, 2; Resolute, 1. There is to be no race tomorrow. Immediately after the finish yesterday Resolute sent aloof the code flag, signifying that she was ready for another trial tomorrow morning, Shamrock however displayed the negative pennant. It was explained that the green sloop is to go into dry dock tomorrow to have her underbody thoroughly scraped and cleaned by order of her owner, Sir Thomas Lipton. This leaves the next race to be sailed Friday.

The French ,it is understood, demanded acquiescence in the French mandate for Syria.

Latest dispatches to the British foreign office from Egypt say the French have declared that a state of war exists between the French and Arabs.

Nothing has been received at the foreign office to indicate that Feisal will accept the ultimatum terms.

COUNCIL MEATS

Better Meats That Cost Less
No Waste · No Ice Needed
Always Tender
Ready-Cooked To Perfection

Meats Aren't High-if You Know How to Buy them.

IF you could lower your meat bill 15 to 25%—it would seem like old times—wouldn't it? Well, you can, and have as good or perhaps better meat than you are now getting—by cutting out the cost of the waste and trimmings for which you pay. The way to do it is to buy cooked Council Meats.

Why are they cheaper than uncooked meats? Only because Council Meats are fine, tender, prime meats and nothing else—no waste, no trimming. And besides much of the weight of uncooked meat is water—water that is lost in cooking—goes off in steam.

Yet you pay for that water at the price of meat. Being cooked, there is no excess water in Council Meats. They're all meat—meat you can eat—no shrinkage.

That's why their use will lower the meat bill at least from 15 to 25%. And remember, only choice, fine, tender cuts skillfully cooked and seasoned, are used for Council Meats. Start saving today.

BLIMP FALLS INTO OCEAN.

Naval Air Station, Rockaway, N Y., July 22.—The navy blimp C-10, which has been observing the international yacht races, came to grief yesterday just as the yachts neared the line,and fell into Jamaica Bay, near the air station. The five members of her crew and three newspaper men aboard escaped with no worse than a ducking.

The ship was about 1000 feet up when the race started, and a few minutes later developed a leak in the gas bag, which compelled her commander Lieutenant A. W. Evans, to head back for the air station under full power and with ballast going over the side in an effort to force the big gas bag higher into the air.

The airship sunk its nose into the water and drenched those aboard, but stayed afloat and drifted ashore without injury to the crew or passengers.

WAR DISAPPOINTED AMERICA.

Tells German People They Can Expect Nothing Politically From United States.

Berlin, July 22.—Count von Bernstorff, former German ambassador to the United States, in a new periodical "Getreu Eckhart," urges that "all our efforts should be directed toward making our business relations with the United States the closest possible."

He declares that Germany must expect nohing from America politically, "as the Americans are tired from a humanitarian standpoint." This, he says, is explainable by the fact that the "war proved a disappointment for the United States."

After emphasizing the necessity for the Germans to work hard at reconstruction, as they could only pay their debts by labor, the former ambassador foreshadows the possibility that American capital and German labor may work together in Russia.

CHICAGO CAN'T PAY BILLS.

City Issues Certificates of Indebtedness in Place of Cash Payments.

Chicago, July 22.—The city of Chicago today began the issuance of certificates of indebtedness in lieu of immediate cash payments because of the insistent demands of the municipality's creditors, coupled with a shortage of funds. This is the first time since 1912 the city has been forced to this course in financing.

Virtually no money save for salaries has been paid out by the City Comptroller since the first of the year. The over-appropriated budget, more than $6,000,000 in excess of estimated revenues, made this necessary..

WORM ATTACKS TOMATO.

Delaware Growers Report Damage by Blight and Caterpillers.

Milford, Del., July 22.—Many tomatoes are being ruined in Delaware by the blight and a new variety of caterpillar. It is thought that the blight is caused by the exceedingly wet weather which has also rotted many of the leaves of the plant and kills its productiveness. The new worm cuts a large hole in the side of the tomato.

A large acreage of tomatoes has been planted this year and dry seasonable weather is hoped for, as it is believed that this will remedy the trouble.

ONE DEAD, THREE MISSING.

Destruction of Mill Dormitory Believed Due to Work of Negro Employee.

Bogalosa, La., July 22.—One man was burned to death, three are missing and six were seriously injured as the result of the destruction by fire yesterdty of a laborer's boarding-house in Richardstown, a suburb.

Authorities stated they believed the fire was started by a negro who had quarreled with the owner of the building.

DEER HIT BY TRAIN.

Doe Outruns Engine in Race on the Lehigh Valley Railroad.

Hazleton, July 22.—Lehigh Valley Railroad passenger train No. 28 leaving Hazleton for Bethlehem encountered three deers yesterday along the tracks near Weatherly, tweive miles from here, and struck one of them as it tried to cross the rails. The deer reeled over, but quickly got up and scampered into the woods with the others.

The Lehigh Valley train due in Hazleton at 7:10 yesterday evening steamed behind a fleeing deer for almost a mile beyond Weatherly, the doe keeping ahead of the engine with apparent ease and disappearing into the forest after it got tired of the rase.

KILLS HER NEIGHBOR.

After Shooting Reptile Other Barrel Goes Off Accidentally, With Disastrous Results.

Hickman, Ky., July 22.—Mrs. Lottie Vick called to her neighbor, Mrs. Jennie Jones, to come and kill a snake which was in her yard yesterday. Mrs. Jone brought her double-barreled shotgun over and killed the snake. She also killed Mrs. Vick when the second barrel went off accidentally, with the full charge taking effect in Mrs. Vick's body.

The women lived at Brondurant Station, ten miles from Hickman.

LAUNCHES BIG OFFENSIVE

New Drive of Soviets Against Poles Extends From Roumanian Border to the Pripet Marshes

Warsaw, July 22.—The heaviest fighting ever experienced on the southern front is now under way, the Bolshevists having launched a general offensive from the Roumanian border to the Pripet Marshes. Detachments of Bolshevists have forced the River Zbrucz, bringing the battle upon Polish soil for the first time.

An official communication issued today announces fierce fighting along the Styr River. All the Red attacks have been repulsed except at one place, where the Reds forced a crossing.

The communication also says that a furious battle is raging in the district of Rovno.

In the north the fighting has reached a point east of Grodno. There the Reds are driving southward toward the River Niemen line.

After two days of fighting with infantry and armored trains the Poles are withdrawing.

POLICE CHIEF FINED

Court Holds Him in Contempt for Denying Cleveland Paper Access to Records

Cleveland, O., July 22.—Police Chief Frank W. Smith was found guilty of contempt of court and fined $100 by Judge Levine in Common Pleas court today.

Judge Levine held the chief guilty of failing to observe the court's injunction ordering him to open all police records to reporters for the Cleveland News.

Enforcement of the fine was withheld until the case is finally disposed of.

The charges against the chief were instituted two weeks ago when the newspaper alleged he disobeyed a temporary injunction restraining him from barring its reporters from access to public police records.

Smith denied he had refused reporters access to the records, but said he had asked subordinates not to give out interviews to the paper's representatives because of alleged distortion and exageration.

OWNER AND BARMAN HELD

Proprietor's Wife and Three Children Die in Flames

Jersey City, N. J., July 22.—Andrew Polski, a saloonkeeper and his bartender were arrested here yesterday on a charge of manslaughter in connection with the fire which last night partly destroyed Polski's saloon, burning to death his wife and three children.

Two other persons were also seriously burned by the flames, which the police believe started in a storeroom alleged to have contained liquor of high alcoholic content and apparatus for the manufacture of whisky.".

Polski and his bartender, the police say, fled when the fire broke out and did not reappear at the saloon. Cans of alcohol and other fluids having an "alcoholic odor" were found in Polski's room on the third floor, according to the police.

Polski, the police say, admitted he had gone into the store room, not long before the fire started, with a lighted candle.

GIRL KILLS WOMAN

Detroit, Mich., July 22.—A precedent was created in the annals of dueling history here Tuesday when two women engaged in a fight over a man said by the police to have been loved by both.

As a result of the battle, Eleanor Greer, 33 years old, is dead and Birdie Bradford, 18 years old, is held by the police to await the action of the Coroner.

According to the officers, the jealousy of the two was brought to a crisis following a quarrel over the man at a rooming house today. Several shots were exchanged.

Miss Greer was wounded in the temple and died in a hospital soon after the shooting. The Bradford girl was untouched.

Good Light Lightens Labor : :

Lighting the kitchen is like lighting a factory. Good lighting quickens production, as the factory man would say. In other words, it makes work go faster without the expenditure of any more energy.

Of all places needing more light and better light the kitchen in most homes is one of the most important. And when you have doubled or trebled the light in your **work** rooms, try it also in your **living** rooms.

If you find that doubling or trebling the illumination there mean glaring light, **don't** cut down the amount of lighting again—**shade** the light better! Keep the direct rays from striking the eye. Throw some of the light to the ceiling and walls.

In every socket—in every room from cellar to garret—use only

EDISON MAZDA LAMPS

If you will do that, you will find that a great deal more light in the room is decorative, pleasing and restful. It's not the amount of LIGHT that you find irritating in some rooms, but the amount of GLARE.

OUR METER MEN REPORT THAT A NUMBER OF OUR CUSTOMERS ARE USING CARBON LAMPS. WHY NOT BE UP TO DATE? USE MAZDA LAMPS—BETTER LIGHT—LOWER BILLS.
